## MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

---

The management of Linamar Corporation (the "Company") is responsible for the preparation of all information included in this annual report. The consolidated financial statements have been prepared in accordance with IFRS<sup>®</sup> Accounting Standards and necessarily include some amounts that are based on management's best estimates and judgements. Financial information included elsewhere in this annual report is consistent with that in the consolidated financial statements.

Management maintains a system of internal accounting controls to provide reasonable assurance that the consolidated financial statements are accurate and reliable and that the assets are safeguarded from loss or unauthorized use.

The Company's independent auditor, appointed by the shareholders, has prepared their report, which outlines the scope of their examination and expresses their opinion on the consolidated financial statements.

The Board of Directors, through its Audit Committee, is responsible for ensuring that management fulfills its financial reporting responsibilities. The Audit Committee is comprised of independent directors who are not employees of the Company.

The Audit Committee meets periodically with management and with the auditors to review and to discuss accounting policy, auditing and financial reporting matters. The Committee reports its findings to the Board of Directors for their consideration in reviewing and approving the consolidated financial statements for issuance to the shareholders.

# INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Linamar Corporation

## Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Linamar Corporation and its subsidiaries (together, the Company) as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

## What we have audited

The Company's consolidated financial statements comprise:

- ◆ the consolidated statements of financial position as at December 31, 2025 and 2024;
- ◆ the consolidated statements of earnings for the years then ended;
- ◆ the consolidated statements of comprehensive earnings for the years then ended;
- ◆ the consolidated statements of changes in equity for the years then ended;
- ◆ the consolidated statements of cash flows for the years then ended; and
- ◆ the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

## Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Independence

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

## Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p><b>Goodwill impairment test for the Bourgault, Salford and Linamar Structures Cash Generating Units (CGUs)</b></p> <p><i>Refer to note 3 - Material accounting policies, note 5 – Critical accounting estimates and judgements, note 11 – Goodwill and note 26 – Business acquisitions to the consolidated financial statements.</i></p> <p>The carrying values of goodwill for the Bourgault, Salford and Linamar Structures CGUs were \$182.4 million, \$92.6 million and \$184.7 million, respectively, as at December 31, 2025. The goodwill for the Linamar Structures CGU contains \$109.3 million related to the acquisition of select net assets of Aludyne Incorporated's North American operations (Aludyne) on November 14, 2025.</p> <p>Management performs an impairment assessment annually for goodwill, or more frequently when there is an indication of impairment. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the full impairment loss is charged against earnings. The recoverable amounts of the Bourgault, Salford and Linamar Structures CGUs were determined by management based on a value in use calculation (the method) using discounted future operating cash flows</p>	<p>Our approach to addressing the matter included the following procedures, among others:</p> <ul style="list-style-type: none"><li>◆ Tested how management determined the recoverable amounts of the Bourgault, Salford and Linamar Structures CGUs prior to the acquisition of Aludyne, which included the following:<ul style="list-style-type: none"><li>◆ Evaluated the appropriateness of the method used and the mathematical accuracy of the models for the five-year period.</li><li>◆ Evaluated the reasonableness of the forecast growth rates and operating costs applied by management in the models by (i) comparing to current and past performance of the CGUs; (ii) assessing consistency with available third party published industry data; (iii) comparing to the approved budgets; and (iv) evaluating whether these assumptions were consistent with management's strategic plans.</li><li>◆ Professionals with specialized skill and knowledge in the field of valuation assisted in testing the reasonableness of the discount rates applied by management and the reasonableness of the recoverable amounts based on available data of comparable companies.</li></ul></li></ul>

## INDEPENDENT AUDITOR'S REPORT

(the models) covering a five-year period. Management applied judgement when developing the key assumptions used in the models, including forecast growth rates, discount rates and operating costs. No impairment loss was recognized as a result of the current year impairment tests.

We considered this a key audit matter due to the judgement made by management in determining the recoverable amounts of the Bourgault, Salford and Linamar Structures CGUs, including the use of key assumptions. This has resulted in a high degree of subjectivity and audit effort in performing procedures to test the key assumptions. Professionals with specialized skill and knowledge in the field of valuation assisted us in performing our procedures.

- ♦ Tested the underlying data used in the models.
- ♦ Tested the disclosures made in the consolidated financial statements related to goodwill impairment tests.

### Other information

Management is responsible for the other information. The other information comprises the Management's Discussion and Analysis and the information, other than the consolidated financial statements and our auditor's report thereon, included in the annual report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

### Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ♦ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

## INDEPENDENT AUDITOR'S REPORT

---

- ◆ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ◆ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ◆ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ◆ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ◆ Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Company as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Aneil Manji.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### 1 General Information

Linamar Corporation and its subsidiaries, including jointly controlled entities, (together, the “Company”) is a diversified global manufacturing company of highly engineered products. The Company is incorporated in Ontario, Canada with common shares listed on the Toronto Stock Exchange (“TSX”). The Company is domiciled in Canada and its registered office is 287 Speedvale Avenue West, Guelph, Ontario, Canada.

The consolidated annual financial statements of the Company for the year ended December 31, 2025 were authorized for issue in accordance with a resolution of the Company’s Board of Directors on March 4, 2026.

### 2 Basis of Preparation

The Company has prepared its consolidated annual financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS<sup>®</sup> Accounting Standards”) and with interpretations of the International Financial Reporting Issues Committee.

Certain comparative figures have been reclassified to conform to the current period’s financial presentation adopted. This includes a reclassification of the December 31, 2024 investments of \$1,419 to prepaid expenses and other current assets, increasing its balance to \$79,481 from \$78,062.

### 3 Material Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### Basis of Measurement

These consolidated financial statements have been prepared on the historical cost basis with any exceptions outlined below.

#### Basis of Consolidation

Subsidiaries are all entities over which the Company has control and all subsidiaries are wholly owned and are located in the geographic regions of our segments. These consolidated financial statements include the accounts of the Company and its subsidiaries. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company and are deconsolidated from the date that control ceases. All significant intercompany transactions are eliminated on consolidation.

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration transferred for the acquisition of a subsidiary is the fair value (at the date of exchange) of the assets acquired, liabilities incurred or assumed, and equity instruments issued by the Company in exchange for control of the acquiree. Any excess of the acquisition cost over the fair value of the net assets acquired and liabilities and contingent liabilities recognized, is recorded in assets as goodwill. If this consideration is lower than the fair value of the net assets acquired, the difference is recognized in profit or loss. Acquisition-related costs are expensed as incurred.

Any contingent consideration to be transferred by the acquirer is recognized and estimated at fair value on the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset, or liability will be recognized in accordance with the applicable standard either in net earnings or as a change to other comprehensive earnings. If the contingent consideration is classified as equity, it shall not be re-measured and shall be accounted for within equity.

The Company may have partial ownership in joint ventures over whose activities the Company has joint control, established by contractual agreements and requiring unanimous consent for strategic, financial and operating decisions. The Company accounts for jointly controlled entities using the equity method after initially being recognized at cost.

The Company may have partial ownership in associates over which the Company has significant influence but not control or joint control. This is generally the case where the Company holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method after initially being recognized at cost.

Under the equity method of accounting, the consolidated financial statements include the Company’s share of the income and expenses and equity movements of the investments, after adjustments to align the accounting policies with those of the Company, from the date that

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

the significant influence or joint control commences until the date that significant influence or joint control ceases. Dividends are recognized as a reduction in the carrying amount of the investment. Where the Company's share of losses in an equity accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Company does not recognize further losses.

Unrealized gains on transactions between the Company and its associates and joint ventures are eliminated to the extent of the Company's interest in these entities. Unrealized losses are eliminated unless the transaction provides evidence of impairment.

### Foreign Currency Translation

#### Functional and presentation currency

The Company's consolidated financial statements are presented in Canadian dollars ("dollars"), which is also the Company's functional currency. Each entity in the Company maintains its accounting records in its functional currency. An entity's functional currency is the currency of the principal economic environment in which it operates.

#### Transactions and balances

Foreign currency transactions are translated into the functional currency using the average exchange rate of the reporting period. At the end of each reporting period, monetary assets and liabilities denominated in foreign currencies are re-translated at period end exchange rates. Non-monetary assets and liabilities, which are measured in terms of historical cost in a foreign currency, are not re-translated. Foreign exchange gains and losses arising from borrowings are presented in the statements of earnings within finance expenses and all other foreign exchange gains and losses are presented within operating earnings except for those which relate to qualifying cash flow hedges and qualifying net investment hedges are presented in other comprehensive earnings within accumulated other comprehensive earnings until realized. Foreign exchange gains and losses arising from long-term intercompany loans, where repayment is neither planned nor likely to occur in the foreseeable future, are considered as part of the net investment in a foreign operation. These are also presented in other comprehensive earnings within accumulated other comprehensive earnings until realized.

#### Foreign Operations

For the purpose of presenting consolidated financial statements, the results and financial position of all entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities are translated at the closing rate at the reporting period end date;
- (b) Income and expenses are translated at average exchange rates for the reporting period; and
- (c) All resulting exchange differences are recognized as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken to equity. When a foreign operation is sold, or there is a disposal involving a loss of control, exchange differences that were recorded in equity are recognized in the statements of earnings as part of the gain or loss on sale or disposal.

### Cash and Cash Equivalents

Cash and cash equivalents include cash in bank and short-term deposits. Cash equivalents are short-term, highly liquid investments, that are readily convertible to known amounts of cash, and which are subject to insignificant risk of changes in value. Investments normally qualify as cash equivalents if they have a term to maturity at the date of purchase of three months or less.

### Receivables

#### Current

Receivables are amounts due from customers for products sold or services performed in the ordinary course of business.

The Company applies the simplified approach, as defined in IFRS Accounting Standards, to measure expected credit losses, which requires the use of the lifetime expected credit loss provision for all trade receivables. To measure lifetime expected credit losses, trade receivables are first categorized by groups with shared credit characteristics and the age of past due receivables followed by an assessment of the Company's historical experience of bad debts including customers' ability to pay and the current and future economic conditions which are expected during the life of the balance. The loss allowance is determined according to a provision matrix incorporating historical experiences adjusted for current and future conditions expected for the life of the balance.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### Long-term

The Company provides financing to certain customers through direct financing loans for the sale of industrial access equipment.

The Company applies the simplified approach, as defined in IFRS Accounting Standards, to measure expected credit losses for receivables that contain a significant financing component (long-term receivables) and applies this approach consistently for all such receivables. To measure lifetime expected credit losses, long-term receivables are first categorized by groups with shared credit characteristics and the age of past due receivables followed by an assessment of the Company's historical experience of bad debts including customers' ability to pay and the current and future economic conditions which are expected during the life of the balance. The loss allowance is determined according to the provision matrix incorporating historical experience by credit risk rating as well as current conditions and forward-looking information. These may include internal credit ratings, external credit ratings (as available), actual or expected significant adverse changes in business, financial or economic conditions, changes in the value of collateral and macroeconomic information such as market interest rates.

### Impairment

The Company defines default of a financial asset when the Company is no longer reasonably assured of the timely collection of the full amount of principal and interest. The Company writes off its receivables when there is no realistic prospect of recovery. This is generally when a debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to write off or fails to engage in a repayment plan with the Company. Where receivables have been written off, the Company continues to engage in enforcement activities to attempt to recover the receivable due. Losses are reversed when recoveries are made, or the future economic conditions have improved.

### Leases

An agreement is a lease if the agreement conveys the right to obtain substantially all the economic benefit from the use of the identified asset and the right to direct the use of the identified asset.

#### Company as a lessee

The Company leases certain property, plant and equipment as right-of-use assets. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. Assets and liabilities arising from a lease are initially measured on a present value basis, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Lease liabilities include the present value of fixed and variable payments, residual value guarantees, exercise of purchase options if reasonably certain to be exercised and any penalties for terminating the lease if reasonably certain to terminate. Right-of-use assets are measured at cost comprised of the amount of the initial measurement of the lease liability plus any lease payments made before the lease commencement date, any initial direct costs and restoration costs. Lease payments are allocated between finance charges and a reduction of the outstanding lease obligation. Finance charges are recognized in net earnings, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs. If the underlying right-of-use asset transfers to the lessee at the end of the lease term or the lessee is reasonably certain to exercise a purchase option, the depreciation shall be the useful life of the right-of-use asset in accordance with the Company's depreciation methods and rates based on the class of the right-of-use asset. Otherwise, the right-of-use assets are depreciated over the shorter of the useful life of the asset and the lease term on a straight-line basis. The Company is exposed to potential future increases in variable lease payments based on an index or rate which are not included in the lease liability until they take effect. When the adjustments for variable payments take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

For any contracts with a short-term or if the present value of the right-of-use asset has a low-value, the Company will expense the lease payments as incurred and no right-of-use asset will be recorded.

#### Company as a lessor

The Company leases certain industrial access products to customers. Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership. All other leases are classified as operating leases. Amounts due from lessees under operating lease arrangements are recognized as revenue over the course of the lease arrangement. Contingent rents are recognized as revenue in the period in which they are earned. Amounts due from lessees under finance lease arrangements are recognized as receivable at the amount of the Company's net investments in the leases. Finance lease income is allocated to accounting periods to reflect a constant rate of return on the Company's net investment outstanding.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### Sale of Receivables

The sale of receivables are recorded, and the receivable derecognized when the Company transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a borrowing for the proceeds received. For some transfers, the Company may provide security in the form of a limited guarantee in regard to the risk of default.

### Inventories

Inventories are valued at the lower of cost and net realizable value. The cost of finished goods and work-in-process is comprised of material costs, direct labour costs and other direct costs and related production overheads (based on normal operating capacity). Costs are allocated to inventory based on weighted average costs. Net realizable value for finished goods and work-in-process is the estimated selling price in the ordinary course of business, less estimated costs of completion and applicable variable selling expenses. For raw materials and general stores inventories the replacement cost is the best available measure of net realizable value.

The amount of inventories recognized as an expense during the period is shown in cost of sales. Write-downs for inventories are recorded when the net realizable value is lower than cost. The write-downs may be reversed if the circumstances which caused them no longer exist.

### Taxation

#### Income taxes recoverable and payable

The taxes currently payable are based on taxable earnings for the reporting period. Taxable earnings differ from earnings as reported in the consolidated statements of earnings because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period, in each jurisdiction that the Company operates in.

#### Deferred tax assets and liabilities

Deferred tax assets and liabilities are recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable earnings. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable earnings will be available against which those deductible temporary differences can be utilized. Deferred tax liabilities are generally recognized for all taxable temporary differences. Such deferred tax is not recognized if the temporary difference arises from goodwill.

Deferred tax assets and liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in foreign operations where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable earnings against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future. The ability to realize the tax benefits for tax loss carry-forwards is dependent upon several factors, including the future profitability of operations in the jurisdictions in which the tax losses arose.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable earnings will be available to allow all or part of the assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the way the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

#### Provision for current and deferred income taxes

Income tax expense represents the sum of the current and deferred income taxes for the period.

Current and deferred tax are recognized as an expense or income in net earnings, except when they relate to items that are recognized outside net earnings (whether in other comprehensive earnings or directly in equity), in which case the tax is also recognized outside net

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

earnings, or where they arise from the initial accounting for a business acquisition. In the case of a business acquisition, the tax effect is included in the accounting for the business acquisition.

### Property, Plant and Equipment

Property, plant and equipment are recorded at cost less accumulated amortization and impairment. Amortization of property, plant and equipment commences when they are ready for their intended use. Amortization is charged to earnings in amounts sufficient to depreciate the cost of property, plant and equipment over their estimated useful lives using the diminishing balance and straight-line methods as follows:

Land-use rights	Straight-line over the life of the contract
Buildings	5% diminishing balance
Machinery	Straight-line over 5 - 20 years or 15% - 20% diminishing balance
Office equipment	Straight-line over 2 - 3 years or 20% diminishing balance
Transportation equipment	10% - 30% diminishing balance
Tooling	Straight-line over 1 – 5 years

Where components of more substantial assets have differing useful lives, these are depreciated separately. Subsequent costs are capitalized in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The assets' residual values, useful lives and amortization methods are reviewed, and adjusted if appropriate, at the end of each reporting period. Repair and maintenance costs are expensed as incurred, except where they serve to increase productivity or to prolong the useful life of an asset, in which case they are capitalized.

Borrowing costs that are directly attributable to the acquisition, construction or production of qualified assets are capitalized as part of the acquisition costs of the qualified asset. All other borrowing costs are recognized in net earnings.

### Intangibles

Intangible assets acquired through purchase are initially measured at cost. Intangible assets acquired through business combinations are initially measured at fair value at the date of acquisition. Amortization is charged to earnings in amounts sufficient to depreciate the cost of intangible assets over their estimated useful lives using the straight-line method or a unit of production basis as follows:

Trade names	Straight-line over 20 years or indefinite life
Customer relationships	Straight-line over 12 - 25 years
Technology	Straight-line over 10 - 15 years
Product development costs	Unit of production basis or straight-line over 5 – 15 years
Software	Straight-line over 3 – 5 years

The assets' residual values, useful lives and amortization methods are reviewed, and adjusted if appropriate, at the end of each reporting period. Intangible assets with indefinite useful lives are not amortized but are reviewed for impairment annually, or more frequently when there is an indication of impairment.

### Goodwill

Goodwill represents the excess of the cost of the acquisition over the fair value of the Company's share of the net identifiable assets of the acquired subsidiary at the date of acquisition. Goodwill is not amortized but is reviewed for impairment annually, or more frequently when there is an indication of impairment.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### Impairment of Non-Financial Assets

At the end of each reporting period, or more frequently based on specific events or changes in circumstances, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the assets are grouped at the lowest level for which there are separately identifiable cash inflows, and the Company estimates the recoverable amount at the cash-generating or grouped cash-generating units ("CGU") level. The Company has determined a CGU to be an individual entity or group of entities with separately identifiable cash inflows. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGUs, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

For impairment testing, goodwill is allocated to each of the Company's CGUs expected to benefit from the synergies of the combination and represents the lowest level in which management monitors its operations. If the Company reorganizes the reporting structure that changes the composition of the CGUs to which goodwill has been allocated, the goodwill is reallocated to the CGUs affected using a method such as the relative value approach at the date of the reorganization.

The recoverable amount is the higher of the fair value less costs of disposal or value in use. Fair value less costs of disposal are based on the amount that a market participant would pay for the asset or CGU. Value in use calculations utilize discounted future operating cash flows. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the full impairment loss is charged against earnings and the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the CGU and then to the other assets of the unit on a pro-rata basis to the carrying amount of each asset in the unit.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU) is increased to the revised estimate of its recoverable amount, but not more than the carrying amount that would have been determined had no impairment loss been recognized for the asset (or CGU) in prior years. A reversal of an impairment loss is recognized immediately in net earnings. Any impairment loss recognized for goodwill is not reversed in a subsequent period.

### Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, considering the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligations, the carrying amount is the present value of those cash flows. The increase in the provision due to passage of time is recognized as interest expense.

A provision for warranties is recognized when the underlying products or services are sold. The provision is based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

### Financial Instruments

A financial instrument is any contract that at the same time gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments are recognized as soon as the Company becomes a contracting party to the financial instrument.

The classification for some financial assets depends on the entity's business model for managing its financial assets and the contractual terms of the cash flows. Debt instruments are assets that are held for collection of contractual cash flows where those cash flows represent payments of principal and interest or are assets that are held for sale. These are classified as either amortized cost, fair value through other comprehensive income or at fair value through profit or loss. Investments in equity instruments are classified at fair value through profit or loss unless an election is applied to classify the investments through other comprehensive income. Financial liabilities are classified as amortized cost. Derivatives are only used for hedging purposes and not as speculative investments; however, where derivatives do not meet the hedge accounting criteria, they are classified as held for trading and are accounted for at fair value through profit or loss.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### Classification and measurement of financial instruments

At initial recognition for financial assets or liabilities, the Company measures a financial instrument at its fair value including debt issue and other transaction costs that are directly attributable to the acquisition or issuance of the financial instrument. Where a portion of a financial instrument is expected to be realized within 12 months of the end of the reporting period, that portion is included in current assets or liabilities, the remainder is classified as non-current.

- (a) **Amortized cost:** Assets that are held for the collection of contractual cash flows are measured at amortized cost using the effective interest method. Cash and cash equivalents, accounts and other receivables and the portfolios of long-term receivables are included in this classification. Short-term bank borrowings, accounts payable and accrued liabilities and long-term debt are financial liabilities included in this classification.
- (b) **Fair value through other comprehensive income:** Occasionally, a portion of the Company's portfolio of long-term receivables may be determined to be held for collection of contractual cash flows and for selling the financial assets. The recognition of impairment losses or impairment reversals, interest revenue and foreign exchange gains and losses are recognized in profit or loss similar to assets classified at amortized cost; however, movements in the carrying value are taken through other comprehensive income until the asset is de-recognized. At that time the cumulative gain or loss previously recognized in other comprehensive income is reclassified to profit or loss. Investments in equity instruments that are strategic in nature and therefore are not held for trading may be classified at fair value through other comprehensive income after an irrevocable election at recognition is completed. The fair value gains and losses on the investments remain in other comprehensive income with no subsequent reclassification of those fair value gains and losses to profit or loss on derecognition of the investment. Dividends from such investments are recognized in profit or loss as finance income when the Company's right to receive payments is established.
- (c) **Fair value through profit or loss:** Derivatives outside of a hedging relationship and investments in equity instruments held for trading have movements in carrying value taken through profit or loss.

### Fair value hierarchy

The Company estimates fair values related to financial instruments and classifies these measurements using a fair value hierarchy that reflects the significance of their respective inputs. The Level 1, 2 and 3 classifications utilized by the Company are defined as follows:

Level 1 - Fair values are determined using inputs from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Fair values are determined using inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly. Derivative financial instruments are valued based on observable market data.

Level 3 - Fair values are determined based on inputs which are not based on observable market data.

The fair value hierarchy is used for all fair value measurement requirements. The Company recognizes transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

### Derivative financial instruments and hedge accounting

Risk management is predominantly controlled by the corporate treasury department. The corporate treasury department identifies, evaluates and hedges financial risks in close cooperation with the Company's operating entities.

Derivative financial instruments are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Company uses derivatives as part of its risk management program to mitigate variability associated with changing market values related to the hedged item. Some of the derivatives used meet hedge effectiveness criteria and are designated in a hedge accounting relationship.

The Company may apply hedge accounting for certain foreign exchange forward contracts and cross-currency interest rate swap contracts as cash flow hedges. The Company uses cash flow hedges for certain risks associated with the cash flows of recognized liabilities and highly probable forecasted transactions. Amounts accumulated in the hedge reserve within other comprehensive earnings are reclassified to net earnings in the period in which the hedged transaction occurs. If the hedged transaction subsequently results in the recognition of a non-financial item, the amounts accumulated in the hedge reserve within other comprehensive earnings are included in the initial cost or other carrying amount of the non-financial item. The deferred amounts are ultimately recognized in net earnings as the non-financial item that impacts net earnings. In some hedge relationships the Company excludes from the designation the forward element of hedging instruments. The changes in the forward element of the contract that relate to the hedged item are recognized within other comprehensive earnings in the cost of hedging reserve within equity and if the hedged transaction subsequently results in the recognition of a non-financial

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

item, the amount accumulated in equity is removed from the cost of hedging reserve and included in the initial cost or other carrying amount of the non-financial item. The deferred amounts are ultimately recognized in net earnings as the non-financial item that impacts net earnings. For any other cash flow hedges, the amount accumulated in the cost of hedging reserve is reclassified to net earnings as a reclassification adjustment in the same period or periods during which the hedged cash flows affect net earnings.

The Company may designate certain portions of its foreign denominated long-term debt or the spot component of a cross-currency interest rate swap as a net investment hedge. Hedges of net investments are accounted for similarly to cash flow hedges with amounts accumulated in other comprehensive earnings. The amounts accumulated in other comprehensive earnings are reclassified to net earnings in the period in which the foreign operation is partially disposed of or sold. When only the spot component of a financial instrument is designated in the net investment hedge, the change in the forward element of the hedging instrument that relates to the hedged item is recognized within other comprehensive earnings in the cost of hedging reserve within equity. Because the net investment is considered a time period related item, the deferred amounts are recognized in net earnings on a rational basis over the period during which the hedge adjustment for the included spot component would affect net earnings.

The fair values are determined based on observable market data.

The Company documents at the inception of the hedging transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The Company also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items. Effectiveness is achieved when the hedging relationships meet all the following hedge effectiveness requirements:

- (a) There is an economic relationship that exists between the hedged item and hedging instrument;
- (b) The effect of credit risk does not dominate the value changes that result from that economic relationship; and
- (c) The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company hedges and the quantity of the hedging instrument that the Company actually uses to hedge that quantity of hedged item.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in accumulated other comprehensive earnings at that time remains in accumulated other comprehensive earnings until the forecasted transaction is eventually recognized in net earnings. When a forecasted transaction is no longer expected to occur, the cumulative gain or loss that was reported in accumulated other comprehensive earnings is immediately transferred to net earnings.

### Share-based Compensation

Under the Company's share-based compensation plan, the Company with the approval of the Board of Directors may grant equity-settled stock options to its key employees and directors.

The Company recognizes a compensation expense for stock options granted and measures the compensation expense at fair value calculated on the grant date using the Black-Scholes option pricing model. The expense is recognized on a graded-vesting basis in which the fair value of each tranche is recognized over its respective vesting period when all the specified vesting conditions are satisfied. Contributed surplus consists of accumulated share-based compensation expenses less the fair value of options at the grant date that have been exercised and credited to common shares.

### Accumulated Other Comprehensive Earnings Reserves

#### Hedging reserves

The cash flow hedge reserve contains both the effective portion of the cash flow hedge relationships incurred as at the reporting date and the excluded component in the hedging designation which is considered a cost of hedging.

#### Cumulative translation adjustment

The cumulative translation adjustment reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries along with the effective portion of the net investment hedge relationship incurred as at the reporting date.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### Revenue Recognition

#### Sale of products

The Company enters contracts with customers to manufacture and sell a range of products focused on propulsion systems, structural and chassis systems, energy storage and power generation for both the global electrified and traditionally powered markets for the Mobility segment. These contracts are entered into with a customer when the Company can identify each party's rights and the contract has commercial substance, which generally is when the customer has made a firm volume commitment. In addition, the Company manufactures and sells a range of industrial equipment such as aerial work platforms, telehandlers and agricultural equipment. Revenue is recognized when control of the products and equipment has been transferred to the customer, generally when the products and equipment are shipped. This represents the point in time the customer obtains significant risk and rewards of ownership, and the Company has the right to payment for the products or equipment.

A receivable is recognized when control of goods transfers to the customer, as indicated above, and consideration is unconditional. Payment terms are generally based on the customers' payment schedules, which typically range from 30 to 90 days from the invoice date. Certain industrial equipment and parts sales have significant financing components and have an average term of 3 to 5 years.

Revenue from these sales is recognized based on the transaction price specified in the purchase order and corresponds to the invoice amount. Sales that include significant financing components are measured and recognized at the purchase order price adjusted for the time value of money. Mobility product sales are recognized net of expected productivity charges. Consideration paid to the customer, if not in exchange for distinct goods or services at their fair values, are recorded within prepaid expenses and other current assets. The asset is amortized as a reduction in sales on a straight-line basis over the term of the specific contract to which the amount paid relates to. Industrial equipment and part sales are recognized net of the expected discounts, rebates and similar obligations. A refund liability is recognized for the expected amount payable to customers due to productivity charges, discounts, rebates and similar obligations that are recorded along with the recognition of the related sales. Productivity charges, rebates, and other similar obligations are classified as variable consideration and measured using historical experience and forecasts of expected sales. Revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. The Company's obligation to provide a refund or replacement for products built-to-print and equipment not in accordance with design specifications is considered a standard warranty and recognized as a provision. Occasionally for Mobility product sales, the Company recognizes retrospective price amendments as a cumulative catch-up adjustment to sales when the contract modification is approved. When applicable, the revenue from services related to the sale of products is recognized when the services are rendered. Any incremental costs to obtain or fulfil a contract with a customer are capitalized when those costs are expected to be recoverable, unless accounted for within another policy.

#### Sale of customer owned assets

The Company enters contracts with customers to develop, manufacture, and fabricate customer owned assets used for the purposes of parts production. Revenue is recognized when control of the asset has transferred to the customer, which occurs when the asset is substantially complete, and the customer approves the initial production sample. This represents the point in time the customer has accepted the asset, significant risk and rewards of ownership have transferred and the Company has the present right to payment.

A receivable is recognized when control of the asset transfers to the customer, as indicated above, and consideration is unconditional. Payment terms are generally based on the customers' payment schedules, which typically range from 30 to 90 days from the invoice date. Payment is typically made through a lump-sum payment, however, milestone payments throughout the asset fabrication process or amortization over parts production are sometimes agreed to. Payments made in advance of transfer of control are recorded as a contract liability and recognized as revenue once control has transferred.

Receivables collected through production parts are adjusted for the time value of money when a significant financing component is present. If revenue is recognized before the contractual right to payment exists, a contract asset is recorded.

Revenue from these sales is recognized based on the lower of transaction price specified in the purchase order or actual price invoiced by the Company to fabricate the asset. This amount corresponds to the amount invoiced to the customer by the Company. The invoice amount represents the standalone selling price of the asset, which is consistent with industry practice.

#### Engineering services

The Company enters contracts with customers to design and develop a product or process using advanced engineering. Revenue is recognized for contracts that qualify as a sale of service, as the service is being rendered or on completion of the service. Revenue recognized over time is generally determined based on the proportion of accumulated expenditures to date as compared to total anticipated expenditures as this depicts the progress towards completion of the service. Revenue is recognized over time for contracts where the

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

Company creates an asset without an alternative use and the customer controls the asset as it is created. For some contracts revenue is recognized at a point in time when the customer approves the product or process.

A receivable is recognized as or when the service is rendered based on stages of completion or at completion as indicated above, and at the time the consideration is unconditional. Payment terms are generally based on the customers' payment schedules, which typically range from 30 to 90 days from the invoice date. Certain contracts have significant financing components as payment is amortized over parts production which is collected over the life of the program and are adjusted for the time value of money. Certain other contracts include milestone payments throughout the development process. Payments made in advance of the service being rendered are recorded as a contract liability and recognized as revenue as the service is performed. If revenue is recognized before the contractual right to payment exists, a contract asset is recorded.

Revenue from these sales is recognized based on the transaction price specified in the purchase order and corresponds to the invoice amount. The invoice amount represents the standalone selling price of engineering services, which is consistent with industry practice.

### Practical expedients

The Company has elected to use the practical expedient for significant financing components expected to be collected in one year or less and for incremental costs to obtain a contract that the Company would have recognized in one year or less. Therefore, the Company does not adjust the transaction price for the time value of money and expenses incremental costs when incurred, respectively. No information is provided regarding any remaining performance obligations at the end of the period for a contract that has an original expected duration of one year or less or for which revenue is recognized based on the right to invoice, as allowed by IFRS 15.

### Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-makers. The chief operating decision-makers for the Company who are responsible for allocating resources and assessing performance of the operating segments have been identified as the senior management that makes strategic decisions.

### Research and Development

Research costs are expensed as incurred. When certain criteria are met, development costs are accounted for as intangible assets and capitalized and amortized. Tax credits related to research and development are credited against the related qualifying expense or against the carrying amount of the related asset.

### Government Grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all required conditions.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Government grants relating to costs are deferred and recognized in net earnings over the period necessary to match them with the costs that they are intended to compensate, and these are presented as a reduction of the related expense. Government grants relating to property, plant and equipment are recognized as a reduction in the carrying amount of the related asset.

### Pension Costs

The Company has various contributory and non-contributory defined contribution pension plans which cover most employees. The Company pays these contributions to a privately administered pension insurance plan after which the Company incurs no further payment obligations. The contributions are accrued and recognized as employee benefit expense when they are due.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### 4 Changes in Accounting Policies

#### New Standards and Amendments Adopted

Certain new standards and amendments have become effective during the current year; however, the adoption of these new standards and amendments did not significantly impact the Company's net earnings or financial position.

#### New Standards and Interpretations Not Yet Adopted

All pronouncements will be adopted in the Company's accounting policies after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Company's financial statements is provided below. Certain other new standards, amendments and interpretations to existing standards were not relevant nor would they significantly impact the Company's net earnings or financial position.

#### *IFRS 18 Presentation and Disclosure in Financial Statements*

Effective for the annual financial statements relating to fiscal years beginning on or after January 1, 2027, the IASB issued a new standard replacing *IAS 1 Presentation of Financial Statements*. Although the new standard carries forward many requirements from IAS 1 unchanged, IFRS 18 introduces three sets of new requirements to improve companies' reporting of financial performance and give investors a better basis for analyzing and comparing companies. Management is currently assessing the impact that these amendments will have on the financial statements.

### 5 Critical Accounting Estimates and Judgements

The preparation of financial statements in conformity with IFRS Accounting Standards requires management to make estimates and judgements about the future. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from those estimates under different assumptions or conditions. The following discussion sets forth management's most critical estimates and assumptions in determining the value of assets and liabilities and most critical judgements in applying accounting policies that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next year.

#### Impairment of Non-Financial Assets

The Company believes that the estimate of impairment for goodwill and non-financial assets is a "critical accounting estimate" because management is required to assess at the end of each reporting period whether there is any indication that an asset may be impaired and to make significant forward-looking assumptions. In assessing whether there is an indication that an asset may be impaired, there are several external and internal sources of information which require a high degree of judgement. Judgement is used for what determines the CGU or group of CGUs and this may impact the results of an impairment review. The recoverable amounts of CGUs have been determined based on the higher of fair value less costs of disposal or value in use calculations, which require the use of estimates. Uncertain changes in the discount rate used, and forward-looking assumptions regarding improvement plans, costing assumptions, timing of program launches, and production volumes may affect the fair value of estimates used. No known trends, commitments, events or other uncertainties are currently believed to materially affect the assumptions used.

#### Current Income Taxes

The Company is subject to income taxes in numerous jurisdictions where it has foreign operations. Significant judgement is required in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain. The Company recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made.

#### Deferred Income Tax Assets and Liabilities

Deferred income tax assets and liabilities result from timing differences between the financial reporting and tax bases of assets and liabilities. Loss carry forwards also comprise a portion of the temporary differences and result in a deferred income tax asset. Deferred income tax assets are only recognized to the extent that management considers it probable that a deferred income tax asset will be realized.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

The assessment for the recognition of a deferred tax asset requires significant judgement. The factors used to assess the likelihood of realization are the Company's forecast of future taxable income and available tax planning strategies that could be implemented to realize the deferred tax assets. The Company has and continues to use tax planning strategies to realize deferred tax assets to avoid the potential loss of benefits. Unknown future events and circumstances, such as changes in tax rates and laws, may materially affect the assumptions and estimates made from one period to the next. Any significant change in events, tax laws, and tax rates beyond the control of the Company may materially affect the consolidated financial statements.

### Useful Lives of Depreciable Assets

Due to the significance of property, plant and equipment and intangible assets on the Company's statements of financial position, the Company considers the amortization policy relating to property, plant and equipment and intangible assets to be a "critical accounting estimate". The Company considers the expected useful life of the assets, expected residual value, and contract length when setting the amortization rates of its assets. Judgement is involved when establishing these estimates as such factors as technological innovation, maintenance programs, and relevant market information must be taken into consideration. The assets' residual values, useful lives and amortization methods are reviewed at the end of each reporting period and are adjusted if expectations differ from previous estimates. If circumstances impacting these assumptions and estimates change, the change in accounting estimates may represent a material impact on the consolidated financial statements.

### Purchase Price Allocations

The determination of the purchase price is a critical estimate. The purchase price related to a business combination is allocated to the underlying acquired assets and liabilities based on their estimated fair values at the time of acquisition. The determination of fair value requires the Company to make assumptions, estimates and judgements regarding future events. The allocation process is inherently subjective and impacts the amounts assigned to individually identifiable assets and liabilities; as a result, the purchase price allocation impacts the Company's reported assets and liabilities and future net earnings due to its impact on future depreciation and amortization expense as well as impairment tests.

## 6 Sale of Receivables

The Company sells a portion of its receivables through various purchase agreements. Under the agreements, the receivables are mostly sold on a fully serviced basis, so that the Company continues to administer the collection of such receivables. The Company receives no fee for administration of the collection of such receivables. The Company has derecognized the receivables as substantially all the risks and rewards of ownership of the assets have been transferred. Although the receivables have been derecognized, the Company has provided limited guarantees within the purchase agreements in regard to the risk of default. At December 31, 2025, the maximum exposure to loss is \$32,368 (2024 – \$29,504).

## 7 Inventories

	December 31 2025 \$	December 31 2024 \$
General stores	283,267	250,088
Raw materials	713,531	784,600
Work-in-process	366,216	357,971
Finished goods	691,754	669,699
	<u>2,054,768</u>	<u>2,062,358</u>

The cost of inventories recognized as an expense during the year ended December 31, 2025 was \$7,831,083 (2024 – \$8,011,567).

A provision for obsolescence for slow moving inventory items is estimated by management based on historical and expected future sales and is included in cost of sales. In the year ended December 31, 2025 the Company recognized a charge to cost of sales for the write-down of slow moving and obsolete inventory, and adjustments to net realizable value aggregating \$31,248 (2024 – \$50,370).

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

#### 8 Income Taxes

##### (i) Income Tax Recognized in Net Earnings

	December 31 2025		December 31 2024	
	\$	%	\$	%
Earnings before taxes	801,230		476,138	
Combined basic Canadian Federal and Ontario Provincial income taxes, including manufacturing and processing reduction	200,307	25.00%	119,035	25.00%
Increase (decrease) in income taxes resulting from:				
Effect of expenses that are not deductible in determining taxable earnings	11,177	1.39%	(13,393)	-2.82%
Effect of unused tax losses not recognized as deferred tax assets	8,889	1.11%	2,743	0.58%
Effect of different tax rates of subsidiaries operating in other jurisdictions	1,887	0.24%	8,557	1.80%
Adjustments recognized in the current year in relation to the current tax of prior years	(5,546)	-0.69%	4,557	0.96%
Non-deductible goodwill impairment	-	-	96,380	20.24%
<b>Income tax expense and effective income tax rate</b>	<b>216,714</b>	<b>27.05%</b>	<b>217,879</b>	<b>45.76%</b>
<b>Current tax</b>	<b>263,838</b>		<b>272,604</b>	
<b>Deferred tax</b>	<b>(47,124)</b>		<b>(54,725)</b>	
<b>Income tax expense</b>	<b>216,714</b>		<b>217,879</b>	

The tax rate used in the reconciliation above is the Canadian corporate tax rate of 25.0% (2024 – 25.0%). Deferred income tax expense (recovery) directly recognized in equity for the year was \$20,407 (2024 – recovery of \$22,766).

The Company is within the scope of the Organization for Economic Cooperation and Development (OECD) Pillar Two model rules and under the legislation, the Company is liable to pay a top-up tax for the difference between its effective tax rate in each jurisdiction and the 15% minimum tax rate. The IAS 12 amendments for a temporary exception to the accounting and disclosures for deferred taxes related to Pillar Two income taxes have been applied.

The Company's Bulgarian operations for 2025 and Hungarian operations for 2024 are subject to the Pillar Two rules as the weighted average tax rate based on accounting profits is below the 16% and 15% minimum tax rate respectively. Considering the impact of specific adjustments in the Pillar Two legislation, the Company recognized an additional current income tax expense for 2025 and 2024.

##### (ii) Deferred Tax Balances

	December 31 2025	December 31 2024
	\$	\$
Tax benefit of tax credits and loss carry forwards	212,090	211,490
Tax benefit (liability) of derivative financial instruments	(3,293)	17,113
Other assets - tax value in excess of book value	87,583	77,460
Cumulative tax amortization in excess of book amortization	(188,186)	(200,779)
Other liabilities - book value in excess of tax value	(157,055)	(183,662)
<b>Deferred tax net position</b>	<b>(48,861)</b>	<b>(78,378)</b>

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

#### Reconciliation of deferred tax net balance:

	2025	2024
	\$	\$
<b>At January 1</b>	(78,378)	(104,694)
Tax recovery (expense) during the period recognized in earnings	47,124	54,725
Tax recovery (expense) during the period recognized in other comprehensive earnings	(20,407)	22,766
Impact of foreign currency translation adjustment	3,618	5,305
Net tax liability related to business acquisition	(9,355)	(61,834)
Other	8,537	5,354
<b>At December 31</b>	<b>(48,861)</b>	<b>(78,378)</b>

#### Net deferred tax balances in the statements of financial position are comprised of the following:

	December 31 2025	December 31 2024
	\$	\$
Deferred tax assets to be recovered after more than 12 months	373,826	320,589
Deferred tax assets to be recovered within 12 months	29,208	17,162
<b>Total deferred tax assets</b>	<b>403,034</b>	<b>337,751</b>
Deferred tax liabilities to be utilized after more than 12 months	(445,794)	(406,407)
Deferred tax liabilities to be utilized within 12 months	(6,101)	(9,722)
<b>Total deferred tax liabilities</b>	<b>(451,895)</b>	<b>(416,129)</b>
<b>Deferred tax balances (net)</b>	<b>(48,861)</b>	<b>(78,378)</b>

#### Unrecognized deferred tax assets were as follows:

	December 31 2025	December 31 2024
	\$	\$
Tax losses	39,078	33,358
Tax credits	4,218	4,218
<b>Total deferred tax assets not recognized</b>	<b>43,296</b>	<b>37,576</b>

The unrecognized tax losses expire as follows: \$12,071 during 2026-2030, \$4,052 during 2031-2045 and \$22,955 have no expiry date (2024 - \$8,075 during 2025-2029, \$4,652 during 2030-2044 and \$20,631 have no expiry date). The unrecognized tax credits expire as follows: \$Nil during 2026-2030 and \$4,218 during 2031-2045 (2024 - \$Nil during 2025-2029 and \$4,218 during 2030-2044).

<b>Book value at December 31, 2025</b>	200,732	1,052,640	2,558,673	50,609	51,177	3,913,831

Amortization expense of \$535,564 (2024 – \$524,113) has been charged in cost of sales and \$4,438 (2024 – \$3,917) in selling, general and administration.

During 2024, an impairment loss of \$105,381 was recorded in cost of sales, primarily for machinery and tooling in the Mobility segment. The impairments were related to Mobility electrified vehicle market and certain other programs that prematurely ended. The same programs also impacted technology intangibles for a 2024 impairment loss of \$10,786 recorded in cost of sales in the Mobility segment.

Building additions made by a related party, a company owned by the spouse of an officer and director, for 2025 were \$9,450 (2024 - \$56,297).

Government grants recognized as a reduction in the carrying amount of the assets during the year was \$14,807 (2024 – \$11,698). See Note 16 for more details regarding government grants.

As of December 31, 2025, property, plant and equipment include \$343,049 (2024 – \$492,964) of assets in the course of construction for production purposes. The majority of the assets in the course of construction are included under the machinery category above.

Office equipment and tooling are included in the other category above.

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

The following amounts are included in property, plant and equipment where the Company is a lessee under lease contracts:

	December 31, 2025		December 31 2024	
	Amortization Year Ended \$	Book value \$	Amortization Year Ended \$	Book value \$
Buildings	32,744	248,236	28,416	167,094
Machinery	1,311	24,739	283	584
Transportation equipment	12,544	30,805	12,836	28,492
Other	977	3,776	1,284	2,583
	47,576	307,556	42,819	198,753

	December 31 2025 \$	December 31 2024 \$
Additions to leased assets	23,591	38,767
Business acquisitions (Note 26)	133,373	422
Lease interest expense	10,951	9,620
Expenses relating to short-term leases	12,107	12,072
Expenses relating to low-value leases	902	1,228
Total cash outflow for leases	42,433	38,437

The lease agreements do not impose any significant covenants other than the security interests in the leased assets that are held by the lessor. Some leases contain variable payment terms and future changes under the variable payment terms will not have a significant impact on future cash flows. There are no significant extension, termination or residual value guarantees that have not already been accounted for within the value of the leased asset or lease liability.

Linamar Mobility North America	88,720	82,018
Linamar Structures (Note 26)	184,660	73,843
	<b>950,091</b>	<b>832,572</b>

During 2024, a change in the allocation of goodwill was made using the relative value approach. The Company has evolved monitoring from the businesses acquired to its operating groups, specifically from a geographic perspective in the case of our Mobility businesses, better matching its updated internal reporting systems. The change did not result in an impairment.

Management performed the annual goodwill and indefinite intangible asset impairment analysis during the fourth quarters of 2025 and 2024 and found that there were no impairments, except for the Linamar Mobility Europe group in 2024. As a result of economic challenges, including a significant decline in European automotive production, the Company recorded a non-cash impairment charge of \$385,523 within operating earnings in 2024 which was determined by comparing the carrying amount of the group to its recoverable amount.

The recoverable amounts of the CGUs were determined on a value in use calculation. The calculation uses cash flow projections based on financial budgets approved by the Board of Directors, covering a five-year period.

Key assumptions used in the determination of the recoverable amount include:

- (a) Operating costs and capital expenditures are based on internal management forecasts. Cost assumptions incorporate the Company's experience and expertise, operating costs, the nature and location of each CGU and the risk associated with each CGU. All committed and anticipated capital expenditures adjusted for future cost estimates have been included in the projected cash flows.
- (b) Forecast growth rates are principally based on the Company's expectations for future performance. For the impairment test, the Company set the terminal value to reflect a 3.0% (2024 – 3.0%) growth rate for the present value calculation.
- (c) Discount rates used reflect specific risks relating to the relevant groups and the countries in which they operate. The pre-tax discount rates used range from 8.0% to 13.3% (2024 – 8.0% to 13.3%).

Sensitivity of impairment tests were performed for the remaining CGUs. A 1% increase in the discount rate would have no impact on the results of impairment tests. A 0.25% decrease in the growth rate would have no impact on the results of impairment tests.

## LINAMAR CORPORATION

Effect of cumulative translation adjustment	351	47	950	1,348
<b>At December 31, 2024</b>	10,243	37,243	27,439	74,925
<b>Charged (credited) to earnings:</b>				
Additional provisions	9,546	13,978	4,449	27,973
Unused amounts reversed	(1,920)	(6,224)	(10,315)	(18,459)
Used during year	(1,771)	(13,380)	(14,327)	(29,478)
Effect of cumulative translation adjustment	(148)	198	819	869
<b>At December 31, 2025</b>	15,950	31,815	8,065	55,830

- (a) **Claims and litigation:** Claims and litigation provision relate to certain legal and commercial claims brought against the Company by stakeholders and potential repayment of government assistance in various jurisdictions. In management's opinion, after taking appropriate legal advice, it is not believed that the outcome of these claims will give rise to any significant loss beyond the amounts provided at December 31, 2025.
- (b) **Product warranties and product defects:** Product warranties and product defects represent the legal or constructive responsibility of the Company for the proper function of products sold and the obligation arising from the use of products sold.
- (c) **Other:** Includes onerous contracts, restructuring, and decommissioning provisions which relate to the legal or constructive obligations for the completion of the leasing arrangements. The provision charge is recognized in earnings within cost of sales.

## 13 Long-Term Debt

The following amounts represent the Company's long-term debt obligations:

	Note	December 31 2025 \$	December 31 2024 \$
Private placement notes	(i)	1,063,520	1,024,245
Bank borrowings	(ii)	637,177	979,628
Lease liabilities	(iii)	320,186	209,477
Government borrowings	(iv)	77,565	79,169
		2,098,448	2,292,519
Less: current portion		287,322	45,658
		1,811,126	2,246,861

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

Principal payments required to meet the long-term obligations were as follows:

	December 31 2025	December 31 2024
	\$	\$
Not later than 1 year	287,322	45,658
Later than 1 year and not later than 5 years	592,424	1,124,741
Later than 5 years	1,221,954	1,127,006
Total principal payments	2,101,700	2,297,405
Less: debt issue costs	3,252	4,886
	2,098,448	2,292,519

#### (i) Private placement notes

The Private placement notes consisted of:

- In January 2021, the Company received funding through a note purchase agreement with certain institutional investors for a private placement of Euro ("EUR") 320.0 million aggregate principal amount issued at an annual rate of 1.37%, coming due January 2031 and paying interest semi-annually. The private placement notes are guaranteed by material subsidiaries of the Company as defined in the agreement. The private placement notes require the Company to maintain certain financial ratios and impose limitations on specific activities. The Company is in compliance with all financial covenants. The EUR denominated notes have been designated as a net investment hedge for the net investments in EUR foreign operations.
- In June 2024, the Company received funding through a note purchase agreement with certain institutional investors for private placement of \$550.0 million aggregate principal amount, issued at an annual rate of 5.96%, coming due June 2033 and paying interest semi-annually. The new private placement notes require the Company to maintain certain financial ratios and impose limitations on specific activities. The Company is in compliance with all financial covenants. The funds were used for general corporate purposes including the Battery Enclosures Business acquisition (Note 26).

#### (ii) Bank borrowings

The Company's credit facility was last amended and restated in November 2022. The facility includes a revolving credit facility for up to \$1.175 billion which will expire in November 2026 and is under terms and conditions largely consistent with the Company's previously existing credit facilities. Borrowings are subject to short-term market rates, plus applicable margin. The facility includes the use of alternative benchmark rates in order to complete the transition due to the IBOR reform.

In February 2024, the Company entered into a new term credit agreement for \$700.0 million in connection with the acquisition of Bourgault (Note 26) and general corporate purposes. The term credit agreement is repayable in three tranches with the last expiring in February 2027. The first tranche due in February 2025 of \$75.0 million was repaid during the third quarter of 2024 and the \$225.0 million February 2026 second tranche was due and paid subsequent to year end. The term credit agreement has terms and conditions largely consistent with the Company's existing credit facility. Borrowings are subject to short-term market rates, plus applicable margin.

These borrowings are unsecured and guaranteed by material subsidiaries of the Company, as defined in their agreements. The borrowings under these facilities require the Company to maintain certain financial ratios and impose limitations on specified activities. The Company is in compliance with all financial covenants.

As of December 31, 2025, \$1,151,637 was available under the Company's credit facility.

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

#### (iii) Lease liabilities

The Company has various leases which are included in property, plant and equipment. The Company's obligations under the leases are secured by the Lessors' title to the assets. The undiscounted contractual maturities are as follows:

	December 31 2025	December 31 2024
	\$	\$
Not later than 1 year	67,044	46,269
Later than 1 year and not later than 5 years	182,059	134,310
Later than 5 years	133,527	66,914
	382,630	247,493
Less: future finance charges	62,444	38,016
	320,186	209,477

#### (iv) Government borrowings

The Company has three unsecured non-revolving interest free government loans due in annual payments through 2034.

## 14 Capital Stock

The Company is incorporated under the Ontario Business Corporations Act in Canada and is authorized to issue an unlimited number of common and special shares.

	Common Shares Issued/(Cancelled) #	Stated capital \$
<b>At January 1, 2024</b>	61,578,157	142,100
Repurchase of shares under normal course issuer bid	(684,111)	(1,579)
<b>At December 31, 2024</b>	60,894,046	140,521
Stock options exercised	100,000	11,493
Repurchase of shares under normal course issuer bid	(1,328,555)	(3,097)
<b>At December 31, 2025</b>	59,665,491	148,917

In November 2024, the Company announced TSX approval to commence a normal course issuer bid. This bid permitted the Company to acquire for cancellation up to 4,021,282 common shares between November 15, 2024 and November 14, 2025. In November 2025, the Company announced TSX approval to commence a normal course issuer bid. This bid permitted the Company to acquire for cancellation up to 3,850,534 common shares between November 17, 2025 and November 16, 2026. These bids are subject to daily limits. Subsequent to December 31, 2025, the Company repurchased and cancelled 217,506 common shares under its bid for a total of \$19,015.

## 15 Revenue from Contracts with Customers

The disaggregated revenue from contracts with customers aligns with the revenue information as disclosed for each reportable segment in Note 24. The Company has recognized revenue-related receivables, contract assets and contract liabilities in its consolidated statements of financial position. Accounts and other receivables and long-term receivables include \$1,178,164 and \$72,056, respectively, of receivables from contracts with customers (2024 - \$1,125,048 and \$50,424, respectively). Accounts payable and accrued liabilities include \$129,768 of liabilities from contracts with customers (2024 - \$184,945) (Note 27).

#### (i) Significant changes in contract liabilities

There has been a decrease in the contract liabilities over the year due to a decline in customer payments made in advance of revenue recognition.

#### (ii) Revenue recognized in relation to contract liabilities

Revenue recognized during the year that was included in the contract liability balance at the beginning of the period was \$94,876 (2024 - \$93,145).

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### (iii) Remaining performance obligations

The aggregate amount of the transaction price allocated to remaining performance obligations as of the end of the year amounted to \$153,715, of which \$129,936 was attributable to customer owned asset contracts, \$18,971 to parts production, \$4,057 to engineering services contracts and \$751 to other (2024 - \$185,556, of which \$136,612 was attributable to customer owned asset contracts, \$34,781 to parts production, \$13,407 to engineering services contracts and \$756 to other).

Management expects that \$119,875 of the transaction price allocated to remaining performance obligations will be recognized during the next year, \$24,186 in 2027, \$4,850 in 2028 and the remaining balance in 2029 and beyond. Remaining performance obligations do not include variable consideration which is constrained.

## 16 Expenses by Nature

	2025	2024
	\$	\$
Cost of materials	5,191,060	5,481,739
Employee benefits (Note 17)	2,432,669	2,479,517
Amortization (Notes 9, 10)	622,300	605,364
Transportation	241,976	269,145
Other	813,818	834,350
	9,301,823	9,670,115

During 2025, the benefits of government grants recorded in the statements of earnings were \$18,155 (2024 - \$22,895). In all cases, repayment of government grants is contingent on employment related measures, investment related measures or both.

During 2025, the Company has incurred research and development costs in the statement of earnings of \$163,644 (2024 - \$168,329).

In 2024, the other category includes customer compensation recoveries partly offset by property, plant and equipment and technology intangible impairments (see Notes 9 and 10).

## 17 Employee Benefits

	2025	2024
	\$	\$
Wages, salaries and commissions	1,858,814	1,884,618
Social charges and other personnel expenses	518,426	518,751
Termination benefits	3,393	26,985
Share-based compensation (Note 18)	3,561	3,492
Pension expenses under defined contribution plans	48,475	45,671
	2,432,669	2,479,517

## 18 Share-Based Compensation

The Company is authorized to grant options for common stock to its key employees and directors. The exercise price of each option equals the average of the high and low market price of the Company's stock for the five trading days prior to the date of grant. An option's maximum term is 10 years, and vesting is determined by the Board of Directors. The Company issues new common shares to satisfy stock options exercised. Options are forfeited when the option holder ceases to be an employee or director of the Company.

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

	Number of options	2025 Weighted average exercise price \$	Number of options	2024 Weighted average exercise price \$
<b>At January 1</b>	1,300,000	61.31	1,250,000	61.65
Granted	150,000	78.21	150,000	62.07
Exercised	(100,000)	73.52	-	-
Expired	-	-	(100,000)	66.63
<b>At December 31</b>	<b>1,350,000</b>	<b>62.28</b>	<b>1,300,000</b>	<b>61.31</b>
<b>Vested at December 31</b>	<b>680,000</b>	<b>59.17</b>	<b>645,000</b>	<b>60.74</b>

In 2025, the average share price, during the period the share options were exercised, was \$79.75. There were no share options exercised in 2024.

The following table is a summary of information about the stock options outstanding at December 31, 2025:

Year of Grant	Exercise Price	Number of options outstanding	Weighted average remaining life in years
2016	\$50.14	100,000	0.9
2018	\$73.96	100,000	2.0
2018	\$45.40	100,000	3.0
2019	\$44.30	150,000	3.9
2020	\$65.42	150,000	4.9
2021	\$74.57	150,000	5.9
2022	\$64.74	150,000	6.9
2023	\$58.25	150,000	7.9
2024	\$62.07	150,000	9.0
2025	\$78.21	150,000	9.9
		1,350,000	5.8

For all grants, the weighted average fair value of share options granted, and weighted average assumptions used in the fair value estimation at the time of grant, using the Black-Scholes model, are as follows:

	Granted in 2025	Granted in 2024
Share option fair value (per share)	\$27.42	\$23.12
Risk free interest rate	3.46%	3.14%
Expected life (years)	10	10
Expected volatility	30.96%	32.42%
Dividend yield	1.76%	1.54%

The expected life used in the Black-Scholes model is the same as the contractual term of the options. The risk-free interest rate used in determining the fair value of the options granted is based on a Government of Canada zero coupon yield that was current at the time of grant and has a term corresponding to the contractual term of the options. The expected volatility considers the historical volatility of the Company's shares for the 10-year period preceding the share option grant date. The dividend yield is the annualized dividend at the date of grant divided by the average exercise price.

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

#### 19 Other Income and (Expenses)

	2025	2024
	\$	\$
Foreign exchange gain (loss)	(41,750)	66,300
Other income (expense)	3,924	18,642
	(37,826)	84,942

#### 20 Finance Income and (Expenses)

	2025	2024
	\$	\$
Interest expense	(91,613)	(126,786)
Foreign exchange gain (loss) on debt and derivatives	(124)	(1,017)
Interest earned	25,381	19,886
Other	(24,529)	(27,271)
	(90,885)	(135,188)

#### 21 Earnings per Share

Basic earnings per share are calculated by dividing the net earnings attributable to equity holders of the Company by the weighted average number of ordinary shares outstanding throughout the year. Diluted earnings per share are calculated by adjusting the weighted average number of shares outstanding during the year to assume conversion of all dilutive potential shares.

	2025	2024
	\$	\$
<b>Net earnings (loss)</b>	584,516	258,259
Weighted average common shares	59,963,188	61,518,562
Incremental shares from assumed conversion of stock options	87,224	73,811
Adjusted weighted average common shares for diluted earnings per share	60,050,412	61,592,373
<b>Net earnings (loss) per share:</b>		
Basic	9.75	4.20
Diluted	9.73	4.19

#### 22 Commitments

As at December 31, 2025, outstanding commitments for capital expenditures under purchase orders and contracts amounted to \$132,774 (December 31, 2024 - \$216,863). Of this amount \$130,959 (December 31, 2024 - \$206,251) relates to the purchase of manufacturing equipment and \$1,815 (December 31, 2024 - \$10,612) relates to general contracting and construction costs in respect of plant construction. Of the commitments for plant construction, \$Nil (December 31, 2024 - \$6,553) were commitments to a related party, a company owned by the spouse of an officer and director. The majority of these commitments are due within the next twelve months.

#### 23 Related Party Transactions

Please see related party transactions related to property, plant and equipment in Notes 9 and 22.

The Company's key management includes members of senior management and the Board of Directors. The compensation paid, or payable, to key management for employee services during the year was as follows:

	2025	2024
	\$	\$
Compensation and short-term benefits	41,365	31,225
Share-based compensation (Notes 17, 18)	3,561	3,492
Total compensation	44,926	34,717

(in thousands of Canadian dollars, except where otherwise noted)

### 24 Segmented Information

Management has determined the operating segments based on the reports reviewed by senior management that are used to make strategic decisions.

**Mobility:** The Mobility segment derives revenues from the collaborative design, development and manufacture of propulsion systems, structural and chassis systems, energy storage and power generation for both the global electrified and traditionally powered markets.

**Industrial:** The Industrial segment is a world leader in the design and production of innovative industrial equipment, notably its class-leading aerial work platforms, telehandlers and agricultural equipment.

The segments are differentiated by the products that each produces and reflect how senior management manages the business. Corporate headquarters and other small operating entities are allocated to the Mobility and Industrial operating segments accordingly.

The Company accounts for inter-segment sales and transfers as arm's length transactions at current market rates. The Company ensures that the measurement and policies are consistently followed among the Company's reportable segments for sales, operating earnings, net earnings and assets.

The Company's customers representing over 10% of revenue are in the Mobility segment and account for 20.1% and 16.5% of total revenue (2024 – 19.2% and 15.2%).

The Company derives revenue from the transfer of goods and services at a point in time and over time in the following operating segments. These segments best depict how economic factors affect the nature, amount, timing and uncertainty of revenue and cash flows.

Operational Segments	Mobility \$	Industrial \$	2025 \$
Total revenue	7,773,136	2,509,781	
Inter-segment sales	(35,641)	(15,512)	
Sales to external customers	7,737,495	2,494,269	10,231,764
Cost of sales before amortization	6,292,783	1,803,699	8,096,482
Amortization	527,644	90,218	617,862
Selling, general and administration	346,163	241,316	587,479
Other income and (expenses)	(8,086)	(29,740)	(37,826)
Operating earnings (loss)	562,819	329,296	892,115

At December 31, 2025	911,077	(2,098,448)	(1,187,371)

The table above details changes in the Company's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Company's consolidated statements of cash flows as cash flows from financing activities. This also applies to derivative financial instruments held to hedge liabilities arising from financing activities although there were none in 2025 or 2024. The Company is also presenting cash and cash equivalents to reflect net debt.

## 26 Business Acquisitions

### (i) Chassis and Structures Business

On November 14, 2025, the Company acquired select net assets of Aludyne Incorporated's North American operations ("Chassis and Structures Business"). The acquisition added advanced capabilities to the Company's lightweight aluminum chassis and structural technologies and expand the Company's footprint across North America, notably in the United States. The preliminary purchase price is \$386,106, with certain adjustments for cash and working capital.

Due to the timing of the close and complexities associated with these transactions, the determination of the fair value of the purchase price, assets acquired, and liabilities assumed, is not yet complete and are subject to further adjustments. The Company has recorded a preliminary amount of \$109,293 to goodwill as the current unallocated portion of the purchase price. The Company will update this balance and disclose the finalized purchase price allocation when the determination of the fair value is complete. The following table summarizes the consideration paid for the Chassis and Structures Business's acquired net assets, recognized at the acquisition date, which has been accounted for as a business combination.

Preliminary summary of identifiable assets acquired, and liabilities assumed after acquisition completed on November 14, 2025:

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

	\$
Inventories	77,913
Property, plant and equipment	166,666
Leased assets	123,920
Intangible assets	32,234
Goodwill	109,293
<b>Total assets acquired</b>	<b>510,026</b>
Lease liabilities	123,920
<b>Total liabilities assumed</b>	<b>123,920</b>
<b>Preliminary net identifiable assets acquired</b>	<b>386,106</b>

The goodwill is attributable to expanding the Company's capabilities and further diversifies the Company's end markets. The goodwill arising from this acquisition will be deductible for tax purposes.

The sales included in the consolidated statements of earnings from November 14, 2025 to December 31, 2025 contributed by the Chassis and Structures Business was \$107,855. The acquisition also contributed net earnings of \$5,586 over the same period. The Chassis and Structures Business is included in the Mobility segment.

#### (ii) Casting Facility

On December 31, 2025, the Company acquired 100% of the equity interest of Georg Fischer's Leipzig casting facility ("Casting Facility"), located in Germany. The acquisition will diversify the Company's casting solutions to include large ductile iron castings for heavy industrial on and off-highway applications. The preliminary purchase price is \$42,890, with certain adjustments for cash, debt and working capital.

Due to the timing of the close and complexities associated with these transactions, the determination of the fair value of the purchase price, assets acquired, and liabilities assumed, is not yet complete and are subject to further adjustments. The Company has recorded a preliminary amount of \$Nil to goodwill. The Company will update this balance and disclose the finalized purchase price allocation when the determination of the fair value is complete. The following table summarizes the consideration paid for the Casting Facility's acquired net assets, recognized at the acquisition date, which has been accounted for as a business combination.

Preliminary summary of identifiable assets acquired, and liabilities assumed after acquisition completed on December 31, 2025:

	\$
Cash and cash equivalents	3,224
Accounts and other receivables	25,027
Inventories	18,554
Property, plant and equipment	61,867
Leased assets	9,453
<b>Total assets acquired</b>	<b>118,125</b>
Accounts payable and accrued liabilities	24,070
Income taxes payable	300
Long-term debt	32,057
Lease liabilities	9,453
Deferred tax liabilities	9,355
<b>Total liabilities assumed</b>	<b>75,235</b>
<b>Preliminary net identifiable assets acquired</b>	<b>42,890</b>

Subsequent to the acquisition, the long-term debt was settled. As the acquisition date is December 31, 2025 there were no sales or net earnings contributed for the period. The Casting Facility is included in the Mobility segment.

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

#### (iii) Bourgault

On February 1, 2024, the Company acquired 100% of the equity interest of Bourgault Industries Ltd. ("Bourgault"), headquartered in St. Brieux, Saskatchewan, Canada. The acquisition expanded the Company's agricultural portfolio into broad acre seeding. The purchase price was \$621,645.

Summary of identifiable assets acquired, and liabilities assumed was completed on February 1, 2024 as a business combination:

	\$
Cash and cash equivalents	1,149
Accounts and other receivables	48,028
Inventories	166,577
Income taxes recoverable	1,291
Prepaid expenses and other current assets	1,374
Property, plant and equipment	137,733
Leased assets	422
Deferred tax assets	731
Intangible assets	239,880
Goodwill	182,350
<b>Total assets acquired</b>	<b>779,535</b>
Accounts payable and accrued liabilities	87,117
Provisions	5,089
Income taxes payable	1,324
Lease liabilities	422
Deferred tax liabilities	63,938
<b>Total liabilities assumed</b>	<b>157,890</b>
<b>Net identifiable assets acquired</b>	<b>621,645</b>

The goodwill was attributable to expanding the Company's capabilities and further diversifies the Company's end markets. The acquisition further positioned the Company as a global agricultural equipment manufacturer. The goodwill arising from this acquisition was not deductible for tax purposes.

The sales included in the consolidated statements of earnings from February 1, 2024 to December 31, 2024 contributed by Bourgault was \$370,150. Bourgault also contributed net earnings of \$11,550 over the same period. Bourgault is included in the Industrial segment.

#### (iv) Battery Enclosures Business

On August 3, 2023, the Company acquired three battery enclosures facilities from Dura-Shiloh ("Battery Enclosures Business") through the acquisition of certain assets and shares. The acquisition increased the Company's electrified product portfolio with increased future battery electric vehicle content. During 2024, due to a change in purchase price, the total consideration decreased by \$20,049 to \$298,811, thereby decreasing the fair value of property, plant and equipment by \$7,990 to \$215,301, decreasing goodwill by \$8,865 to \$71,707, and other insignificant adjustments.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### 27 Financial Instruments

#### (i) Accounts Payable and Accrued Liabilities

	December 31 2025	December 31 2024
	\$	\$
Accounts payable	1,325,608	1,279,746
Accrued liabilities	773,385	783,004
Financial liabilities	2,098,993	2,062,750
Contract liabilities (Note 15)	129,768	184,945
Accounts payable and accrued liabilities	2,228,761	2,247,695

The Company has supplier financing programs with third-party financial institutions that provide an alternative source of financing for the Company's suppliers. The arrangement provides the suppliers with the option to be paid by the financial institution at a discount earlier than the payment date of their receivable. The due dates between the Company and the suppliers have been extended to an average of 90 – 180 days after the invoice date. Suppliers not party to the supplier financing programs are paid on average of 60 days after the invoice date.

Included in accounts payable at December 31, 2025 are \$147,006 (2024 - \$172,643) of liabilities that are part of a supplier financing program. Of this balance, the suppliers party to the program have received payments of \$118,175 (2024 - \$147,862).

#### (ii) Composition of Financial Instruments

The comparison of fair values to carrying amounts of financial assets and financial liabilities along with the fair value hierarchy for financial assets and financial liabilities carried at fair value on a recurring basis is as follows:

	Subsequent Measurement	December 31, 2025		December 31, 2024	
		Carrying Value Asset (Liability)	Fair Value	Carrying Value Asset (Liability)	Fair Value
		\$	\$	\$	\$
Long-term receivables	Amortized cost (Level 2)	75,383	79,051	53,679	52,425
Derivative financial instruments (hedge relationships) (iii):					
USD sales forwards – CAD functional entities	Fair value (Level 2)	7,066	7,066	(52,043)	(52,043)
USD sales forwards – MXN functional entities	Fair value (Level 2)	21,816	21,816	(19,657)	(19,657)
USD sales forwards – CNY functional entities	Fair value (Level 2)	347	347	(1,445)	(1,445)
Long-term debt, excluding lease liabilities (Note 13)	Amortized cost (Level 2)	(1,778,262)	(1,687,475)	(2,083,042)	(1,994,979)

The fair value of the long-term receivables, derivative financial instruments, and long-term debt are determined by using valuation techniques based on observable market data other than quoted prices. The Company determined that the fair value of its investments is equal to the carrying values. The fair value of other financial instruments such as cash and cash equivalents, accounts and other receivables, short-term bank borrowings and accounts payable and accrued liabilities approximate their carrying values due to the short-term maturities of these instruments. There were no transfers in the fair value hierarchy between Levels 1, 2 and 3 during the year.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices for similar instruments;
- The fair value of forward foreign exchange contracts is determined by using forward exchange rates at the reporting date; or
- Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments.

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

#### (iii) Derivative Financial Instruments and Hedge Accounting

The summary of the Company's derivative financial instruments and hedge accounting is as follows:

	Hedging reserves			Unrealized gain/(loss) recognized	Other comprehensive earnings Gain/(loss) reclassified to sales and finance expense		Change in cost of hedging
	Carrying value	Cost of hedging reserve	Total				
	\$	\$	\$	\$	\$	\$	\$
a) USD sales forward contracts	12,155	(2,275)	9,880	71,697	18,385	(8,455)	
b) Long-term debt designated as net investment hedge	-	-	-	(38,944)	-	-	
December 31, 2025, gross	12,155	(2,275)	9,880	32,753	18,385	(8,455)	
Deferred tax				(17,924)	(4,596)	2,113	
December 31, 2025, net				14,829	13,789	(6,342)	

	Hedging reserve			Unrealized gain/(loss) recognized	Other comprehensive earnings Gain/(loss) reclassified to sales and finance expense		Change in cost of hedging
	Carrying value	Cost of hedging reserve	Total				
	\$	\$	\$	\$	\$	\$	\$
a) USD sales forward contracts	(55,407)	4,067	(51,340)	(114,474)	19,540	3,870	
b) Long-term debt designated as net investment hedge	-	-	-	(8,704)	-	-	
December 31, 2024, gross	(55,407)	4,067	(51,340)	(123,178)	19,540	3,870	
Deferred tax				28,618	(4,885)	(967)	
December 31, 2024, net				(94,560)	14,655	2,903	

There was no ineffectiveness in any of the hedge relationships in 2025 and 2024.

#### a) USD Sales Forward Contracts

The Company enters a series of forward exchange contracts to hedge a portion of the ultimate cash flows arising from highly probable forecasted consolidated USD sales. The Company's program hedges a portion of USD sales forecasted by entities with various functional currencies. Every quarter, additional contracts will be initiated in order to maintain a proportional coverage for up to 18 months of forecasted USD sales.

All the contracts are designated as cash flow hedges for accounting purposes for the spot component only, up until the month of the sales activity. The changes in the forward element (the excluded component) of the contracts are recognized within other comprehensive earnings in the cost of hedging reserve within equity and are reclassified to net earnings in sales when the hedging relationship ends. The derivatives are in the same currency and notional amounts as a portion of the anticipated USD sales; therefore, the hedge ratio is on a one-to-one basis. It is anticipated that all critical terms will match during the period they are outstanding, therefore the economic relationship will remain 100% effective. After the month the sales activity occurs, the net fair value on the derivatives outstanding until maturity is recognized in other income and (expenses). For the current year, this was a gain of \$12,764 (2024 – loss of \$16,165).

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

The summary of contracts in place with USD notional hedge values and average forward rates back to the respective functional currencies is as follows:

	December 31, 2025		December 31, 2024	
	Notional Hedge Value USD \$	Average Forward Rate	Notional Hedge Value USD \$	Average Forward Rate
USD sales forwards – CAD functional entities	741,750	1.3707	756,450	1.3534
USD sales forwards – MXN functional entities	184,250	20.0834	156,350	19.7307
USD sales forwards – CNY functional entities	32,400	6.9631	32,925	6.9823
	958,400		945,725	

### b) Long-term Debt Designated as Net Investment Hedge

In 2021, EUR denominated private placement notes were designated as a net investment hedge for the net investments in EUR foreign operations. As all critical terms matched during the period, the economic relationship was 100% effective.

Further terms of the EUR denominated private placement notes are disclosed in Note 13(i).

### (iv) Financial Risk Management

The Company is primarily exposed to market risk, liquidity risk, credit risk and capital risk as a result of holding financial instruments.

#### Market Risk – Foreign Exchange Risk

The Company operates in several different geographical regions in the world and has many business arrangements with customers and suppliers also based in different geographical regions. The Company therefore is affected by changes in foreign exchange rates. These foreign exchange rate changes affect net sales and expenses based on foreign currencies and the translation of monetary balances in relation to functional currencies. To minimize the adverse effects on the financial performance of the Company, foreign exchange derivative contracts, which may or may not be designated in a hedge accounting relationship, and certain portions of its foreign denominated long-term debt may be used to mitigate certain foreign currency risk exposures to reduce the uncertainty from foreign currency transactions and functional currency translations.

Approximate foreign exchange exposure as related to the following significant currencies:

	December 31 2025 %	December 31 2024 %
USD activity	84.1	87.2
EUR activity	3.8	2.2
British pound activity	7.9	2.3
Mexican peso activity	0.9	0.9

The Company has foreign operations with functional currencies that differ from the parent.

Assuming all other variables are constant a 5% strengthening of the following significant currencies against the functional currency of the Company and its foreign subsidiaries would result in gains/(losses) by the amounts shown below:

	December 31, 2025		December 31, 2024	
	Impact on net earnings gain/(loss) \$	Impact on hedging reserve gain/(loss) \$	Impact on net earnings gain/(loss) \$	Impact on hedging reserve gain/(loss) \$
USD	(17,905)	(31,815)	(16,352)	(34,362)
EUR	439	-	(378)	-
British pound	1,138	-	281	-
Mexican peso	(359)	(7,710)	(1,733)	(6,832)

A weakening of the same currencies at December 31 would have had the equal but opposite effect, on the basis that all other variables remain constant.

# LINAMAR CORPORATION

## Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

### Market Risk – Interest Rate Risk

Due to the Company's capital structure, there is some degree of exposure to changes in the Canadian, US, European and Asian money market rates of interest. The Company does invest excess funds at times to maximize interest income earned. The investment quality must meet internal standards for ratings and liquidity to safeguard the Company's cash and cash equivalents. Interest rate or cross-currency interest rate swap agreements are used by the Company from time to time to manage the fixed and floating interest rate mix of the Company's total debt portfolio and related overall cost of borrowing.

As at December 31, 2025, an interest rate change of 50 basis points (all other variables held constant) would have an impact on net earnings for the year of \$3,886 (2024 - \$4,766).

### Liquidity Risk

Liquidity risk is the Company's ability to meet its financial obligations when they come due. The Company manages the liquidity risk of forecasted cash flows from operations, by ensuring that there are cash resources available to meet these needs. As at December 31, 2025, the Company's revolving bank facility had available credit of \$1,151,637. The revolving facility matures in 2026, and the term credit agreement matures in 2027.

The amount of financial resources available to invest in a Company's growth is dependent upon its size and willingness to utilize debt and issue equity. If the Company deviates from its growth expectations, it may require additional debt or equity financing. There is no assurance that the Company will be able to obtain additional financial resources that may be required to successfully compete in its markets on favourable commercial terms. Failure to obtain such financing could result in the delay or abandonment of certain strategic plans for product manufacturing or development.

The undiscounted contractual maturities of the Company's financial liabilities are as follows:

	Current year	Maturing in 1	Maturing after	Total
	\$	to 2 years	2 years	\$
	\$	\$	\$	\$
December 31, 2025				
Accounts payable and accrued liabilities	2,098,993	-	-	2,098,993
Long-term debt and contractual interest payments, derivative instruments, and financial guarantees	471,253	507,357	1,616,412	2,595,022
	2,570,246	507,357	1,616,412	4,694,015
December 31, 2024				
Accounts payable and accrued liabilities	2,062,750	-	-	2,062,750
Long-term debt and contractual interest payments, derivative instruments, and financial guarantees	174,963	667,709	1,921,192	2,763,864
	2,237,713	667,709	1,921,192	4,826,614

### Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The maximum exposure to credit risk at the reporting date is represented by the net carrying amount of the Company's cash and cash equivalents, accounts and other receivables, long-term receivables, derivative financial instruments and financial guarantees. The Company is exposed to credit risk from potential default by counterparties that carry the Company's cash and cash equivalents and derivative financial instruments. The Company attempts to mitigate this risk by dealing only with large financial institutions with investment grade credit ratings. All the financial institutions within the bank syndicate providing the Company's credit facility meet these qualifications.

A substantial portion of the Company's receivables are with large customers in the automotive, truck and industrial sectors and are subject to normal industry credit risks. At December 31, 2025, the receivables from the Company's three largest customers amounted to 14.0%, 9.3% and 6.5% (December 31, 2024 – 12.9%, 8.5% and 6.4%) of customer receivables.

The following represents the weighted-average expected credit loss rate of the Company's accounts and other receivables and long-term receivables. For credit risk management, the Company assesses the age of past due receivables to determine if credit risk has increased significantly. The aging of receivables is as follows:

## LINAMAR CORPORATION

### Notes to Consolidated Financial Statements

For the years ended December 31, 2025 and December 31, 2024  
(in thousands of Canadian dollars, except where otherwise noted)

	December 31, 2025		December 31, 2024	
	Accounts and other receivables \$	Long-term receivables \$	Accounts and other receivables \$	Long-term receivables \$
Current	1,132,339	76,164	1,006,766	52,182
Past due 1-30 days	191,561	399	187,681	6
Past due 31-60 days	30,821	32	56,204	4
Past due 61-90 days	7,605	28	16,438	4
Past due >91 days	45,554	1,161	49,284	3,166
Gross carrying amount	1,407,880	77,784	1,316,373	55,362
Loss allowance provision	3,811	2,401	4,092	1,683
	1,404,069	75,383	1,312,281	53,679
Expected loss rate	0.3%	3.1%	0.3%	3.0%

The above gross carrying amounts represent the maximum exposure to credit risk without taking into consideration any collateral held or other credit enhancements. This is mitigated as the Company may hold a security interest in the underlying asset until the balance is fully settled by the customer, resulting in a reduced actual exposure.

#### Capital Risk Management

The Company's capital management objectives are to ensure the stability of its capital to support continued operations, provide an adequate return to shareholders and generate benefits for other stakeholders. The Company's capital is composed of shareholders' equity and is not subject to any capital requirements imposed by a regulator.

The Company manages the capital structure and adjusts it considering changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue or re-acquire shares, acquire or dispose of assets, and adjust the amount of cash and cash equivalents. There were no changes in the Company's capital risk management strategy during the year.
